Evan Maxey
Scientific Assistant
GPPD, Intense Pulsed Neutron Source
Argonne National Laboratory

Dear Mr. Maxey,

This is to certify that these materials, synthesized in our laboratory, are not harmful substances. These are hygroscopic compounds that absorb moisture from the air and should be kept in a sealed container .

Item #1) 2g Powder of MeTAl

Item #2) 2.5 g Powder of CeRaMiC

Sincerely,

Bob Budson
Professor
